

Reaching Refugees In Jordan Since 2012

OUTSIDE the refugee camps, there are hundreds of thousands of “urban” refugees trying to survive on their own. Those individuals/families **outside** the camps are who we serve.

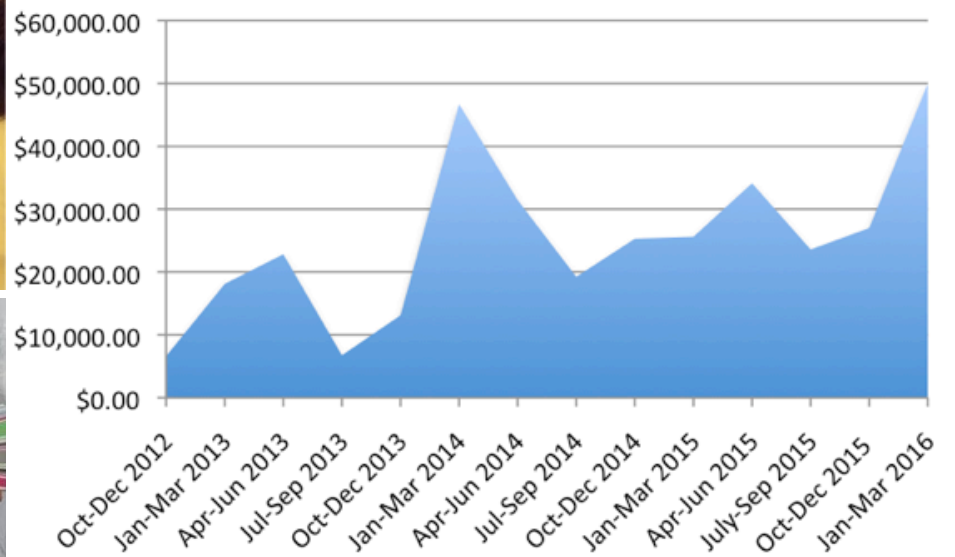

- Jordan’s refugee population (1.4 million) is now 20% of the total population (6.6 million).
- The UN food program has cut funds, leaving a maximum amount per person per month of \$14. *The majority of those we serve DO NOT receive anything.*
- Estimated unemployment rate for Jordanians in 2014 was 11.9%. Jordan was a poor country before the refugees arrived. Refugees are not allowed to work.
- This outreach has been in partnership with the local church since its beginning in 2012 and allows us to represent Christ in our work.

All financial figures shown above reflect data from the fund's inception in Oct 2012 through Mar 2016 (*estimated figures through March 2016*).

WINTER months (Nov-Mar) average 40% of the yearly total.

Financial Summary

- Total gifts *received* since creation of fund: **\$317, 432**
- Total *paid out* since creation of fund: **\$307, 092**
- Expenses incurred during the winter months average 40% of the yearly total. (*Notice the spikes during winter months in the chart above*)

What Do We Provide?

Blankets, heaters, foam mattresses, basic foods (rice, lentils, pasta, eggs, oil, fruits and vegetables), hygiene products, and general medications (when necessary), etc. ***We purchase items from local businesses to assist the local economy.*** Because of this, and very high shipping costs, we ask that you ***do not*** try to collect items for us.

Refugee Children's Program (\$1834/month)

- Ongoing, twice-weekly program for kids in a nearby village church to share Bible stories, songs, simple crafts and an occasional field trip
- Transportation is provided free of charge to the children for this
